

Real-Time Innovations, Inc. Software License Agreement - Germany

PLEASE READ THIS SOFTWARE LICENSE AGREEMENT (“SLA”) CAREFULLY BEFORE DOWNLOADING, INSTALLING, OR USING THIS PRODUCT. THIS SLA GRANTS THE PERSON OR ENTITY WHO DOWNLOADS OR INSTALLS THIS SOFTWARE (“LICENSEE”) THE RIGHT TO USE THIS PRODUCT FOR SPECIFIED PURPOSES. UNLESS LICENSEE HAS ENTERED INTO A SEPARATE DULY SIGNED SLA WITH RTI, THIS SLA STATES THE TERMS AND CONDITIONS UPON WHICH REAL-TIME INNOVATIONS, INC. (“RTI”) OFFERS OR ACCEPTS LICENSEE’S OFFER TO LICENSE THIS PRODUCT, RELATED DOCUMENTATION (COLLECTIVELY, THE “SOFTWARE”), AND RELATED SERVICES TO LICENSEE.

BY CLICKING “I ACCEPT” OR BY OTHERWISE DOWNLOADING OR USING THIS SOFTWARE, YOU (A) ACCEPT THIS SLA AND AGREE THAT LICENSEE IS LEGALLY BOUND BY ITS TERMS; AND (B) REPRESENT AND WARRANT THAT IF LICENSEE IS A CORPORATION, GOVERNMENTAL ORGANIZATION, OR OTHER LEGAL ENTITY, YOU HAVE THE RIGHT, POWER, AND AUTHORITY TO ENTER INTO THIS SLA ON BEHALF OF LICENSEE AND BIND LICENSEE TO ITS TERMS. IF, IN SUCH CASE, YOU ARE NOT AUTHORIZED TO BIND LICENSEE, YOU ARE NOT PERMITTED TO INSTALL AND/OR USE THE SOFTWARE. ALL USE OF THE SOFTWARE AND RELATED SERVICES IS SUBJECT TO THE TERMS OF THIS SLA.

The Software is licensed, not sold, to Licensee for use only under the terms of this SLA and RTI reserves all rights not expressly granted to Licensee. RTI retains ownership of all copies of the Software.

1) Definitions

- A “**CPU**” is a physical computer processor. A CPU may contain multiple cores. In a virtual environment, the number of CPUs is the maximum number of simultaneously-loaded images.
- “**Development**” is developing code that links to and uses the Software either directly or through any number of internally-developed “wrapper” Application Programmer Interface (API) layers. Development includes making copies of the library portions of the Software (in subdirectory “/lib”) in object code form and linking or physically incorporating the copies into a Target Application. Development includes any use of the Software’s programming and analysis tools, XML-based or other configuration, or other components of the Software with a Graphical User Interface (GUI).
- “**Engineering Build**” means beta, experimental, early access, field builds, and/or non-general access or non-maintenance release versions of the Software.
- “**Feedback**” means any suggestion or idea for modifying RTI’s Software or Services, including without limitation, all Intellectual Property Rights in any such suggestion or idea.
- “**Intellectual Property Rights**” means any and all registered and unregistered rights granted, applied for, or otherwise now or hereafter in existence under or related to any patent, copyright, trademark, trade secret, database protection, or other intellectual property rights Laws, and all similar or equivalent rights or forms of protection, in any part of the world.
- “**Internal End Use**” is use of the Software in a Target Application to be operated by the Licensee to produce direct revenue or benefit to Licensee rather than sold or licensed to a third party.
- A License Acknowledgement Certificate (“**LAC**”) is a separate document issued by RTI to Licensee specifying the Project, Project Type, Site, Software, number and type of licenses, and references special terms (if any) and other details of the licenses that Licensee is granted. Licensee may have multiple LACs; each forms a separate agreement that is governed by the terms of this SLA. If Licensee does not have an applicable LAC, then Licensee’s use is as specified under “**Evaluation License**” below.

- The “**License Term**” is the active period of this Agreement with respect to each specific license. It is specified for each license in the LAC.
- **Master Agreement** means, if applicable, the separate agreement governing the terms of purchase and general ordering process between Licensee and RTI.
- A “**Member**” is a person on the Project team who, at any time during the preceding 6 months, has:
 - Developed code that links to and uses the Software either directly or indirectly through any number of internally developed “wrapper” Application Programmer Interface (API) layers; or
 - Used the Software programming and analysis tools, XML-based or other configuration, or other components of the Software with a Graphical User Interface (GUI).
- A Maintenance and Support Certificate (“**MSC**”) is a separate document issued by RTI to Licensee specifying the details of the maintenance and support coverage to which Licensee is entitled for a Project. Licensee may have multiple MSCs or none.
- A “**Project**” is a concerted undertaking by an identified team to design or produce a Target Application or connected set of Target Applications that has a specified scope of functionality, as specified in the LAC.
- A “**Project Type**” is a collection of restrictions on and/or licenses granted to the Project, as specified in the LAC.
- “**Services**” means any installation, training, consultancy service, product enhancement, product extension, or other services offered by RTI, including, but not limited to, any services included in a support package bundle.
- A “**Site**” is a physical location or set of locations, including reasonable remote access, as specified in the LAC.
- A “**Target Application**” is a Member-developed software program that requires physical incorporation or linking of portions of the Software to execute.

2) General License Terms

- A) Individual contractual agreements shall in any case take precedence over this SLA. This Section applies to all licenses granted under this SLA. Licenses are non-transferable and non-exclusive. Use of each license is limited to the designated licensee, Site(s), Project, and Licensed Platform(s) and to the License Term, all as defined in the LAC specifying the grant. For each license, Licensee must pay RTI fees in accordance with RTI’s then-current, applicable, published price list, or as may be specifically agreed to in text form between Licensee and RTI. If Licensee elects to use the Software outside of the License Term, Licensee will need to acquire an appropriate license. For all licenses with a specified numerical limit, Licensee agrees to provide RTI with good-faith estimates of actual license usage annually. Licensee may make one copy of each the Software for data backup purposes; provided, however, that Licensee shall ensure that such backup copies reproduce alphanumeric identifiers, trademarks, and copyright notices unchanged and keep records of the location of the copies.
- B) If Software is designated as an Engineering Build on Licensee’s LAC, Licensee may not distribute or sublicense the Engineering Build to third parties without RTI’s prior consent in text form. Licensee is not licensed to use the Engineering Build as part of any production system. Licensee acknowledges and understands that Engineering Build Software has not gone through RTI’s standard commercial testing and is not supported by RTI’s support team.

3) License Types

A) Project License

If a Licensee has a LAC that specifies a Project License, then the quantity of Members indicated on the LAC represents the maximum number of licensed Members for the Project (“**Total Project Software Staff**”). Should the Project contain users that do not meet the definition of a Member, such users may install the Software and execute Target Applications (e.g. for testing) without charge.

RTI reserves the right, upon reasonable notice, to examine Licensee's records regarding the number of Members for a particular Project.

B) Developer License

If Licensee has a LAC that specifies a number of Developer Licenses, then up to that number of Members may use the Software for Development.

C) OEM Runtime CPU License

If Licensee has a LAC that specifies a number of OEM Runtime CPU licenses, then Licensee may physically incorporate copies of the Software into a Target Application and distribute and sub-license the Software as incorporated into the Target Applications using up to that number of CPUs, provided that each CPU has a core density equal to or less than that specified on the LAC. These terms apply to all such Target Applications:

- a) Unless Licensee's LAC states that Licensee may use an unlimited number of OEM Runtime Licenses, Licensee agrees to keep records of the number of Target Applications and CPUs Licensee distributes. RTI shall have the right, upon reasonable notice, to examine Licensee's records regarding such practices.
- b) Licensee must be licensed to use the Software for Development on the Project at the time of distribution of each Target Application.
- c) Unless specified in the LAC, Target Applications must be a finished good and may not contain software development functionality, RTI source code, or components of the Software with a Graphical User Interface (GUI).
- d) Licensee must distribute Licensee's Target Application to end users with a license that acknowledges RTI's copyright, prohibits Development use, prevents further copying of the Software (except for backup purposes), and expressly disclaims all warranties by RTI.
- e) Any valid end-user licenses to Target Applications incorporating Software granted by Licensee under this SLA shall survive the termination of this SLA.

D) Reserved

E) Source License

- a) If Licensee has a LAC that specifies a Source License, then Licensee may use and modify the source code, and build object versions of the original or modified source code.
- b) If Licensee modifies the source code and provides such modifications to RTI ("**Provided Modifications**") then Licensee grants RTI a perpetual, worldwide, non-exclusive, assignable, paid-up license to use, copy, modify, distribute, create derivative works, sublicense, and otherwise fully utilize the Provided Modifications without acknowledgment of ownership. Licensee also assigns or licenses to RTI any other Intellectual Property Rights required to fully use the Provided Modifications for any purpose. RTI may incorporate Licensee's Provided Modifications into any future version of the Software or into other products at its sole option without fees or attribution.
- c) If Licensee modifies the Software, then the warranties provided under this SLA shall not apply to the extent that an issue is exposed or associated with the modifications created by Licensee. Unless agreed otherwise, RTI has no obligation to support the modified Software.
- d) A Source License does not grant other rights; a Project License or a Developer License is required for Development, and an OEM Runtime CPU License is required to create or distribute Target Applications.

F) Evaluation License

If Licensee has a LAC that specifies an Evaluation License, or Licensee has not received a LAC from RTI, then RTI grants Licensee a temporary license to use the Software for the sole purpose of testing the suitability, performance, and usefulness of the software for Licensee's business needs.

Unless extended by RTI, the Evaluation License Term concludes thirty (30) days from the date of Licensee's first download or installation of the Software.

G) Research License

If Licensee has a LAC that specifies a Research License, then Licensee may use the Software for Development and testing subject to the following additional restrictions:

- a) Licensee may not use the Software on a Project that is intended for commercial distribution (“**Commercial Purpose**”) or Internal End Use. Evidence of a Commercial Purpose includes the existence of a customer delivery or production schedule, involvement of production management personnel, installation into production systems, and/or development of financial return goals.
- b) Licensee may not distribute Target Applications outside of the Project, Site and entity specified on the LAC.

RTI will, in its sole determination, approve Research Licenses.

4) Additional Restrictions

- A) Except as provided herein, Licensee may not market, distribute or transfer copies of the Software to others. Licensee may not rent, lease, loan, or otherwise provide the Software to any third parties.
- B) Licensee is only entitled to duplicate, edit, or decompile the Software if RTI fails to respond to Licensee's request for assistance and only to the extent that duplication, editing, or decompiling is legally permissible.

Except as provided herein or as otherwise required by law, Licensee may not copy, modify, or create derivative works of the Software. Licensee is not entitled to transfer the Software or any backup copies to third parties. In particular, Licensee is not permitted to sell, lend, rent, or otherwise sublicense the Software or to publicly reproduce the Software or make it accessible to third parties, except as provided herein.

If Licensee has access to the Software, the retranslation of the source code into other code forms as well as other types of retranslation of the various production stages of the software, including a source code modification for Licensee's personal use, is not permitted.

- C) Licensee may not reverse engineer the Software.
- D) Licensee may not use the Software if Licensee is a direct competitor or acting on behalf of a direct competitor of RTI, except with RTI's prior consent in text form. In particular, Licensee may not a) use the Software for competitive purposes, including performing performance vulnerability tests nor b) disclose results of any tests to third parties without RTI's prior written consent.
- E) Licensee may not remove any proprietary notices from the Software of the associated documentation.

5) Limited Warranty

- A) In general, the Software provided is subject to the express restriction that no software or IT infrastructure on the market is 100% secure and 100% free of defects. This is due, among other things, to the large number of

viruses in circulation and to the fact that there are always security risks which cannot yet be counteracted according to the prevailing state of the art. RTI cannot per se provide protection against improper operation or modification of Licensee's Target Applications, against possible contamination of Software with computer viruses or other malware, or against other security vulnerabilities that are beyond RTI's control.. The services provided by RTI do not protect against possible infringements of intellectual property or other illegal activities of third parties - such as cyber-attacks/hacker attacks, spying, and interception of data or other illegal data alterations and computer sabotage.

- B)** RTI warrants that the services owed by RTI have the quality that is customary for services of the same type and that the customer can expect according to the type of the specific service. In accordance with the foregoing provisions, it is expressly pointed out that the trouble-free and unrestricted quality and functionality of the services owed by RTI is regularly also dependent on software and hardware components of third party providers which RTI has no control over. In particular, any changes in such software components or in the Licensee's hardware and software environments may lead to restrictions in the functionality of the services owed by RTI. Restrictions due to technical or other problems beyond the control of RTI (force majeure, fault of third parties, etc.) are not attributable to RTI.
 - a)** RTI warrants that the Software will perform substantially in accordance with the accompanying written materials and this SLA.
 - b)** RTI warrants that the portions of RTI Software that Licensee may integrate into Target Applications is not subject to restrictions or licenses that would require Licensee to redistribute any of Licensee's source code.
 - c)** RTI warrants that it has the right to grant Licensee the licenses herein.

RTI does not warrant that the Software will meet Licensee's requirements or operate free from error.

- C)** RTI warrants that it will use commercially reasonable efforts to perform the Services in a timely, professional manner ("**Services Warranty**").
- D)** This limited warranty gives Licensee specific legal rights. Licensee may have others, which vary from state to state. After the installation warranty period, Licensee may elect to purchase support or maintenance subject to RTI's policies then in effect. RTI's Maintenance Policy and Support Policy can be found online at <https://www.rti.com/terms>.
- E)** RTI's entire liability and Licensee's sole and exclusive remedy for any breach of the foregoing Software Warranty shall be, at RTI's option, to either: (a) return the price paid for the Software; or (b) repair or replace the Software. Licensee is obliged to notify RTI immediately of any defects that occur. In the case of defects, such notification must include the time of occurrence of the defect(s) and the detailed circumstances. Any defects in the Services owed by RTI shall be remedied after Licensee has described the defect. If RTI is unable to remedy the defect within a reasonable period of time, Licensee may demand a pro rata reduction. This shall not apply if the defect is due to circumstances for which the licensee is responsible, in particular if Licensee fails to comply with his obligation to cooperate. In the event of repeated significant defects, Licensee may furthermore terminate the contract without notice. Further rights of the licensee remain unaffected.
- F)** Licensee's sole remedy, and RTI's sole liability, for breach of the foregoing Services Warranty is for RTI to re-perform the Services. RTI makes no warranty that the Services will be completed to Licensee's satisfaction. If completing the Services or bringing the Services into compliance will result in unreasonable efforts, both parties agree to negotiate in good faith to arrive at a resolution.

- G) EXCEPT FOR THE WARRANTIES EXPRESSLY SET FORTH IN THIS SECTION 5, RTI MAKES NO OTHER WARRANTIES WHATSOEVER WITH RESPECT TO THE SOFTWARE. THE WARRANTY, OBLIGATIONS, AND LIABILITY OF RTI AND LICENSEE'S RIGHTS AND REMEDIES SET FORTH IN THIS SLA ARE EXCLUSIVE AND ARE IN LIEU OF, AND LICENSEE HEREBY WAIVES AND RELEASES ALL OTHER IMPLIED WARRANTIES, OBLIGATIONS, REPRESENTATIONS, OR LIABILITIES, ARISING BY LAW, IN CONTRACT, CIVIL LIABILITY, OR IN TORT, OR OTHERWISE, INCLUDING BUT NOT LIMITED TO a) ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE, AND b) ANY OTHER OBLIGATION OR LIABILITY ON THE PART OF RTI TO ANYONE OF ANY NATURE WHATSOEVER BY REASON OF THE DESIGN, IMPLEMENTATION, SALE, REPAIR, OR USE OF THE SOFTWARE OR RELATED PRODUCTS AND SERVICES DELIVERED OR RENDERED HEREUNDER OR OTHERWISE.
- 6) **Intellectual Property Infringement Indemnity.** RTI will defend any suit brought against Licensee and will pay all damages finally awarded in such suit insofar as such suit is based on a claim that the Software as provided to Licensee infringes a third party patent or copyright, provided that RTI is notified promptly of such claim and at its expense is given full and complete authority (including settlement authority), information and assistance by Licensee (at Licensee's expense) for such defense. In the event that the Software is held in any such suit to infringe such a right and its use is enjoined, or if in the opinion of RTI the Software is likely to become the subject of such a claim, RTI at its own election and expense will either: (A) procure for Licensee the right to continue using the Software; or (B) modify or replace the Software so that it becomes non-infringing while giving equivalent performance. In the event that (A) or (B) above are not, in RTI's sole determination, reasonably practicable, then RTI may terminate this SLA and refund an equitable portion of money paid by Licensee in connection with the licenses granted hereunder. The Patent Infringement Indemnity provided herein shall not apply to the extent that the alleged infringement arises from (A) use of the Software in combination with data, software, hardware, or other technology not provided by RTI or authorized by RTI in writing; or (B) modifications to the Software not made by RTI.
- 7) **LIMITATIONS OF LIABILITY**
- A) Any claims for damages arising directly or indirectly in connection with the Services, irrespective of the legal grounds, are excluded.
- B) This exclusion of liability shall not apply in the event of a breach of a material contractual obligation (cardinal obligation). Cardinal obligations are obligations the fulfilment of which makes the proper performance of the contract possible in the first place and on the observance of which Licensee as a contractual partner regularly relies and may rely, i.e. rights and obligations which the contract is specifically intended to grant according to its content and purpose.
- C) The liability is limited to the compensation of the contract-typical, foreseeable damage. Licensee shall in any case be entitled to prove that the damage was less.
- D) Furthermore, the exclusions and limitations of liability in this SLA do not apply to damages resulting from injury to life, body, or health caused by an intentional or negligent breach of duty by or on the part of one of RTI's legal representatives or vicarious agents. The exclusions and limitations of liability in this SLA shall also not apply to other damage caused by an intentional or gross negligent breach of duty by RTI or by a legal representative of or by a vicarious agent of RTI or if the other damage was caused by the absence of a guaranteed quality or due to fraudulent concealment of a defect.
- E) The provisions of the Product Liability Act (ProduktHaftG) shall remain unaffected by these exclusions and limitations of liability.

- F) LICENSEE RECOGNIZES THAT THE SOFTWARE MAY BE PART OF A SYSTEM USED TO CONTROL EXPENSIVE OR DANGEROUS EQUIPMENT. LICENSEE ACKNOWLEDGES AND AGREES THAT LICENSEE IS RESPONSIBLE FOR TAKING STEPS TO PROTECT AGAINST TARGET APPLICATION AND SYSTEM FAILURES, INCLUDING PROVIDING BACK-UP OR SHUTDOWN MECHANISMS. LICENSEE IS ULTIMATELY RESPONSIBLE FOR VERIFYING AND VALIDATING THE SUITABILITY OF RTI SOFTWARE FOR LICENSEE'S INTENDED USE. EACH END USER SYSTEM IS CUSTOMIZED AND DIFFERS FROM RTI'S TESTING PLATFORMS. LICENSEE MAY USE RTI SOFTWARE IN COMBINATION WITH OTHER PRODUCTS IN A MANNER NOT EVALUATED OR CONTEMPLATED BY RTI. Licensee agrees to indemnify, defend, and hold RTI harmless from any claim, lawsuit, legal proceeding, settlement, or judgment (including, without limitation, RTI's reasonable United States and local attorneys' and expert witnesses' fees and costs) arising out of or in connection with the copying, marketing, performance or other distribution of Licensee's Target Applications.
- G) THE **AGGREGATE LIABILITY OF RTI** FOR ANY CLAIMS ARISING OUT OF THIS SLA OR USE OF THE SOFTWARE OR PERFORMANCE OF THE SERVICES IN ANY ONE YEAR, INCLUDING ANY BREACH OF WARRANTY CLAIM SUBJECT TO ARTICLE 5, REGARDLESS OF THE FORM OF ACTION, **SHALL NOT EXCEED** THE GREATER OF THE AGGREGATE LICENSE FEES LICENSEE PAID FOR THE SOFTWARE IN THAT YEAR AND **\$10,000 (TEN THOUSAND DOLLARS)**. **This limitation of liability shall not apply in the event of a breach of a material contractual obligation (cardinal obligation). Cardinal obligations are obligations the fulfilment of which makes the proper performance of the contract possible in the first place and on the observance of which Licensee as a contractual partner regularly relies and may rely, i.e. rights and obligations which the contract is specifically intended to grant according to its content and purpose. Furthermore, this limitation of liability does not apply to damages resulting from injury to life, body, or health caused by an intentional or negligent breach of duty by or on the part of one of RTI's legal representatives or vicarious agents. This limitation of liability shall also not apply to other damage caused by an intentional or gross negligent breach of duty by RTI or by a legal representative of or by a vicarious agent of RTI or if the other damage was caused by the absence of a guaranteed quality or due to fraudulent concealment of a defect.**

The provisions of the Product Liability Act (ProduktHaftG) shall remain unaffected by this limitation of liability.

8) Open Source

- A) Portions of the Software may be derived from works of contributors to open source projects ("Contributors"). Contributors disclaim all warranties, express or implied as to conditions of title non-infringement, merchantability, or fitness to purpose. Contributors disclaim all liability for damages, including direct, indirect, special, or consequential damages. Any such warranties and liability are offered by RTI alone as stated and limited in this SLA.
- B) If required by the respective licenses, source code for the modified open source works is available by emailing a request to "license@rti.com".

9) Support and Maintenance

- A) RTI shall have no obligation under this SLA for corrections of errors or problems which are due to a breach by Licensee of the terms of this SLA, or which cannot be remedied due to the operational characteristics of the computer equipment on which the Software is used.
- B) If Licensee has an MSC, then Licensee is eligible to receive support and/or maintenance for the Project specified by, and subject to the terms of, the MSC during the Active Dates listed therein. Such support and/or

maintenance shall be governed by the terms of RTI's Support Policy and Maintenance Policy, located at <https://www.rti.com/terms>.

- C) Except as may be provided above or in a separate RTI Maintenance agreement between RTI and Licensee, if any, RTI is under no obligation to maintain or support the Software supplied to Licensee and RTI has no obligation to furnish Licensee with any further assistance, documentation or information of any nature.
- D) Licensee is solely responsible for the support and maintenance of all portions of any Target Applications developed by Licensee.

10) IP Rights in Services Performed

- A) Licensee hereby grants RTI a perpetual, irrevocable, worldwide license to use any Feedback that Licensee communicates to RTI during the term of this SLA, without compensation, without any obligation to report on such use, and without any other restriction. RTI's rights granted in the previous sentence include, without limitation, the right to exploit Feedback in any and every way, as well as the right to grant sublicenses.
- B) Material and associated Intellectual Property Rights developed by a party prior to or outside the scope of Services described on the quotation or (if applicable) Statement of Work ("**Pre-Existing IP**") shall be owned by the developing party. Provided, however, that RTI shall own all rights, title, and interest in all scripts, methodologies, processes, and documentation and all intellectual properties rights therein, developed during the section of the Services involving (a) implementation or installation of the Software into Licensee's environment, (b) configuration of workflow or reporting capabilities of the Software, (c) optimization of the use of the Software in Licensee's environment, and/or (d) any intellectual property that is inseparable from or an extension of RTI products or services (collectively, the "**RTI-Owned Work Product**"). Any software that is RTI intellectual property (including RTI-Owned Work Product) delivered as stand alone software components or plug in modules that are first created during the Services shall be owned by RTI, but RTI grants a nonexclusive, worldwide license to use, modify, sublicense, and otherwise fully utilize such newly created RTI intellectual property without attribution.

11) Confidentiality RTI considers the Software to contain valuable trade secrets of RTI, the unauthorized disclosure of which could cause irreparable harm to RTI. Licensee agrees not to disclose the Software to any third parties and not to use the Software other than for the purposes authorized by this SLA. Licensee also agrees that performance, functionality, or other competitive evaluation results shall not be disclosed to third parties without RTI's prior written consent. For the purposes of this Section, Licensee's subcontractors under appropriate non-disclosure obligations with respect to the Software shall not be considered third parties. This confidentiality obligation shall continue after any termination of this SLA.

12) Termination This SLA will terminate when all licenses granted hereunder have reached the end of their respective License Term, unless terminated due to breach. For clarity, if the License Term of any license granted is designated as "Permanent" in the LAC, then this SLA will continue indefinitely unless terminated due to breach. In the event of a breach of this SLA by either party, the other party may terminate this SLA if such breach is not cured within 10 days of written notice. Upon termination, Licensee agrees not to use the Software for any purpose whatsoever and, except for reasonable backup archives. In addition, Licensee will destroy the Software and any copies then in Licensee's possession or control, and (on request) certify in writing or via e-mail to RTI that the Software was destroyed. The following sections will survive termination of this SLA: (A) any obligation to pay for RTI's Software or RTI Services rendered before termination; (B) Sections 7 (Limitation of Liability), 11 (Confidentiality), and 16 (Dispute Resolution); and (C) any other section of this SLA that must survive to fulfill its essential purpose. The remedies specified in this SLA shall be in addition to any other remedies available to RTI.

- 13) Export Control** The Software is subject to United States Export Administration and Regulations. Downloading, installing, or using the Software, or selecting the online "Accept License SLA" button is a confirmation of Licensee's SLA that Licensee (including all Members and Projects) complies, now and during any use term, with all domestic and international export laws and regulations that apply to the Software. These laws include restrictions on destinations, end users and end use. If the Software is exported from the United States or re-exported from a foreign destination, Licensee shall ensure that the distribution and export/re-export or import of the Software complies with all laws, regulations, orders, or other restrictions of the U.S. Export Administration Regulations.
- 14) Government End Users** If the Software is acquired by or on behalf of a unit or agency of the United States Government, this section applies. The Software: (A) was developed at private expense, (B) is a trade secret of RTI for all purposes of the Freedom of Information Act, (C) is a "Commercial Item", as that term is defined at 48 C.F.R. 2.101, consisting of "Commercial Computer Software" and "Commercial Computer Software Documentation", as such terms are used in 48 C.F.R. 12.212 or 48 C.F.R. 227.7202, as applicable, (D) in all respects is proprietary data belonging solely to RTI, (E) is unpublished and all rights are reserved under the copyright laws of the United States. Consistent with 48 C.F.R. 12.212 or 48 C.F.R. 227.7202-1 through 227.7202-4, as applicable, the Commercial Computer Software and Commercial Computer Software Documentation are being licensed to U.S. Government end users (A) only as Commercial Items and (B) with only those rights as are granted to all other end-users pursuant to the terms and conditions herein.
- 15) Entire SLA** This SLA and the License Acknowledgment Certificate(s) between RTI and Licensee constitute the complete, final, and exclusive statement of the agreement between RTI and Licensee, which supersede all proposals, oral or written, and all other communications between the parties relating to the subject matter of this SLA. No terms of Licensee's purchase order nor any waiver, alteration or modification of the sections of this SLA will be valid unless made in writing and signed by a corporate officer of RTI.
- 16) Dispute Resolution** This SLA will be governed by the laws of the State of California except with regard to its choice of law rules. **ANY CONTROVERSY OR CLAIM ARISING OUT OF OR RELATING TO THIS SLA, OR THE BREACH THEREOF, SHALL BE SETTLED BY BINDING ARBITRATION IN SANTA CLARA COUNTY, CALIFORNIA, UNDER THE COMMERCIAL ARBITRATION RULES OF THE AMERICAN ARBITRATION ASSOCIATION BY ONE ARBITRATOR APPOINTED IN ACCORDANCE WITH SAID RULES. JUDGMENT ON THE AWARD RENDERED BY THE ARBITRATOR MAY BE ENTERED IN ANY COURT HAVING JURISDICTION THEREOF. NOTWITHSTANDING THE FOREGOING, THE PARTIES MAY APPLY TO ANY COURT OF COMPETENT JURISDICTION FOR INJUNCTIVE RELIEF WITHOUT BREACH OF THIS ARBITRATION SECTION.**
- 17) Severability** If any section or sections of this SLA are determined to be invalid, illegal, or unenforceable, the validity, legality and enforceability of the remaining sections of this SLA will not in any way be affected or impaired thereby.
- 18) Assignment** RTI may assign this SLA to an entity acquiring essentially all of the RTI's relevant business. Licensee may not assign, sub-license, or otherwise transfer this SLA without RTI's prior written consent.
- 19) Electronic Signatures** Each party agrees that the electronic signatures, whether digital or encrypted, of the parties may be included in this SLA to authenticate this writing and to have the same force and effect as manual signatures. For purposes of this SLA, inclusion of the SLA on Licensee's Purchase Order or a reference to this SLA on RTI's Quotation may also authenticate this writing and have the same force and effect as manual signatures.

If Licensee has any questions concerning this SLA, or if Licensee wants to contact RTI for any reason, please write or call: Real-Time Innovations, Customer Service, 232 East Java Drive, Sunnyvale, CA 94089; license@rti.com; (408) 990-7400.
