

REAL-TIME INNOVATIONS, INC.

PROJECT TERMS – INFRASTRUCTURE COMMUNITY

The Real-Time Innovations, Inc. (RTI) Project Terms is an exhibit to the RTI License Acknowledgment Certificate (LAC). The Project Terms specifies the particular terms and licenses that You are granted. All use is subject to the terms of the RTI Software License Agreement (SLA). In case of conflict, the order of precedence is the LAC, these Project Terms, and then the SLA. Capitalized terms that are not defined herein are defined in the SLA.

Infrastructure Community Development Project

- a. The “Software” in this Agreement includes only the products or versions as specified in this LAC. The Open Infrastructure Community License may grant you different or additional use of some components of the Software if they are included in the Infrastructure Community Software.
- b. All Development using any component of the Software on the Project at the Site must be licensed under the terms of the SLA.
- c. Each component of the Software is licensed under one of the following Counting Models, as specified in the LAC:
 - Developer-only Model: You may use only the specified number of Developer Licenses. You may use any number of Internal CPU Licenses and OEM Runtime CPU Licenses on the Project.
 - Internal CPU-only Model: You may use only the specified number of Internal CPU Licenses. You may use any number of Developer Licenses and OEM Runtime CPU Licenses on the Project.
- d. Users within the Project are charged only for Development. Any number of Users within the Project may use the Software for purposes other than Development without charge.
- e. Unless specifically noted on the LAC, every Developer on a single Project must be licensed for the same set of Software components.
- f. You may not use the Software for Internal End Use.
